ANAD DRM

For almost two years, Anniston Army Depot has experienced financial challenges, which have kept the installation from reaching or exceeding its net operating goals.

Through our challenges with implementation of the Logistic Modernization Program and workload fluctuations, it has been a virtually improbable task to attain a positive financial position.

However, since the end of July, the depot's financial status has improved tremendously. The installation is now postured to exceed its fiscal year 2012 net operating goal.

Given the hard work employees have put in to achieve this remarkable turn-around, the commander has approved a Group Award Payout of up to \$1,000 for all eligible employees.

Look for information detailing the eligibility criteria and when the payout will occur in a future TRUCKS issue. In the mean time, way to go, Anniston Army Depot!

Depot trains for disaster

by Jennifer Bacchus

ANAD PAO

Though the calendar read Sept. 20, Anniston Army Depot's Emergency Operations Center was caught in a time warp, propelled forward two weeks to the installation's upcoming Community Appreciation Day.

Employees monitored radios and weather conditions, ensuring the safety of the depot workforce and their family members who were participating in the games and festivities about a mile away.

As news of a simulated explosion reached the group, they reacted – each using their training to respond to the crisis – answering phone calls from concerned citizens, arranging for assistance from outside sources, communicating with those who needed to evacuate the area and helping those injured in the blast or by the ensuing chemical cloud.

Thankfully, the explosion was part of an exercise aimed at testing the depot's emergency services, fire and law enforcement, safety, antiterrorism and emergency management procedures.

The Army has tasked the depot to annually exercise its all-hazard response capabilities, according to Thyris Banks, chief of the depot operations office. This enables depot emergency responders to see how they would react to anything from a tornado to an active shooter or, in the case of the Sept. 20 exercise, an explosion involving a large container of chlorine.

This year's exercise was a functional exercise, meaning no actors were used to portray the events and no assets were actually deployed to the accident site. The events simply unfolded within the EOC.

Every three years, the installation must hold a full scale exercise, but other exercises held during that time may be functional or tabletop.

"We can still exercise the key components

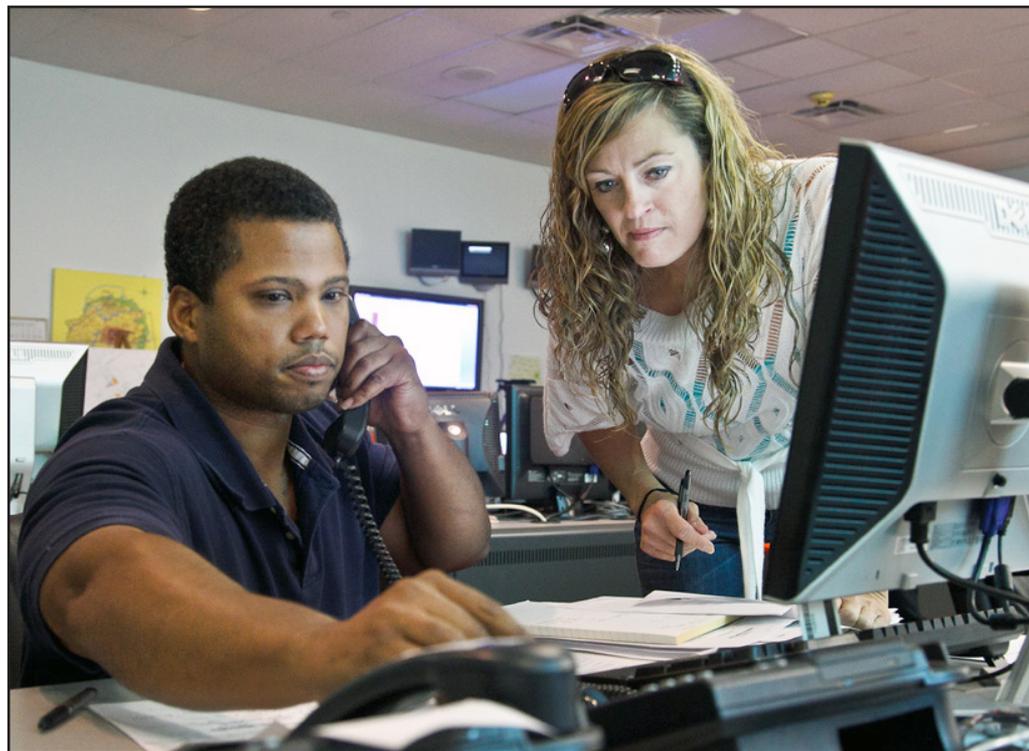

Photo by Mark Cleghorn

In the depot's Emergency Operations Center, Karena Goede and Andel Jarvis respond to a caller's question regarding the environmental impact of the simulated explosion.

of our first responder and emergency management procedures with a tabletop exercise," said Banks, adding that he would like to see the exercise evolve from an annual event to a quarterly event, as the Chemical Accident or Incident Response and Assistance exercises were while chemical weapons were stored on the installation.

"That was just one hazard we exercised quarterly with CAIRA, but we have to be prepared for all hazards that may occur," said Banks.

Scenarios for the all-hazards exercises are

based upon events most likely to impact the installation and a planning committee, made up of depot employees with knowledge of the emergency procedures that will be affected by the exercise meet to plot ways to test target capability.

"Target capabilities are a list of tasks that would always have to be performed, regardless of the emergency," said Kent Latimer, emergency manager for the Depot Operations Of-

2 Playing politics: How to do it fair and square

by Mickey Starling

ANAD Legal Office

One of the primary responsibilities we have as citizens of this great nation is to elect our leaders. The right to vote has been paid for dearly throughout our history. It is a right too precious to squander.

However, as federal employees, we have another responsibility to be fair and impartial in doing the business that the American people have entrusted to us.

To accomplish that goal of political impartiality, Congress passed the Hatch Act in 1939 to prevent political patronage within government and prohibit the use of a federal job for partisan gain.

The Hatch Act prohibits federal employees, including military members, from engaging in partisan political ac-

tivity in uniform, on duty or in a government building, installation or vehicle.

The prohibitions are aimed at activity promoting a specific political party or a candidate in a partisan political election.

To accomplish this, federal employees are prohibited from:

- Being a candidate in a partisan election for public office
- Soliciting or receiving political contributions for a party or partisan candidate
- Wearing partisan political buttons or clothing on duty, in a government office, building or vehicle or while in uniform
- Soliciting or discouraging the political activity of anyone with business before the government
- Using your official position to influence or interfere with an election

Despite these restrictions, federal employee can actively participate in the political process.

We can do a variety of things to ensure our views are heard and votes count:

- Register and vote in elections
- Express opinions about candidates and issues in our capacity as private citizens
- Contribute to political organizations' parties and attend political fundraisers
- Attend political rallies and meetings off-duty and out of uniform
- Join, serve actively and hold office in a political party or club
- Campaign for or against candidates in partisan elections, including making campaign speeches and distributing campaign literature
- Campaign for or against refer-

enda, constitutional amendments or ballot initiatives

- Run for public office in a non-partisan election

Democracy and representative government works best when citizens take their responsibilities seriously and participate fully in the process.

As federal employees, we, like our fellow citizens, have numerous opportunities to be involved. We only need to remember that we have an added responsibility to not use our job, official position or title to participate.

For more information on the Hatch Act and how to play politics fairly and squarely, please contact the Anniston Army Depot Legal Office at 256-235-6518. or consult the website of the Office of Special Counsel at <http://www.osc.gov>.

Hispanics played vital part in American history

from Staff Reports

ANAD EEO Office

This year's Hispanic Heritage Month began Sept. 15 and extends through Oct. 15.

Here are some facts to help everyone understand the importance of this time of appreciation:

- In 1968, Congress authorized President Lyndon B. Johnson to proclaim National Hispanic Heritage Week to celebrate the traditions, ancestry and experiences of U.S. residents who trace their roots to Spain, South America, the Caribbean and Puerto Rico.

- There are five Latin American countries – Costa Rica, El Salvador, Guatemala, Honduras and Nicaragua – who celebrate the anniversaries of their independence at this time of year.

- Hispanics are an integral part of this nation's history. More than 500 years ago soldiers and sailors of Spain arrived on the shores of the Americas.

- Every American should know that the oldest, continuously inhabited city in the United States is St. Augustine, Fla., (founded in 1565) and that Hispanic culture had a firm root in the Southeast and Southwest of what became the United States before the English arrived in Jamestown and before the pilgrims dropped anchor in Massachusetts Bay.

- The contributions of those early Spanish set-

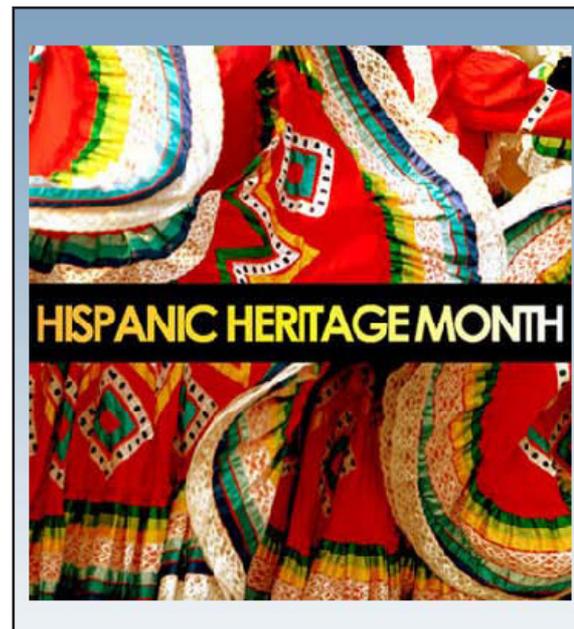

tlers and their diverse, mixed-blood descendents provided the basis of much of American agriculture, mining, transportation, city planning, architecture and even law in the Southeast and Southwest. These contributions include the right of women to inher-

it and own property, homestead rights and the rights of adopted children to be treated the same as genetic offspring.

- Hispanics have risen to great heights and established their mark on behalf of U.S. society in many fields of endeavor. In the 20th century alone, the impact of Hispanic achievements was felt long before the demographic growth of this decade.

- Beginning with the 2010 census form, people of Spanish/Hispanic/Latino origin could identify themselves as Mexican American, Chicano, Puerto Rican, Cuban or "another Hispanic, Latino, or Spanish origin." According to that same census, 50.5 million people, or 16 percent of the population, are of Hispanic or Latino origin, which is significantly higher than the 2000 Census, which registered the Hispanic population at 35.3 million or 13 percent of the total U.S. population.

- Even a cursory glance at popular culture today reveals the growing influence of Hispanics in the U.S. Billboard's top 100 albums have included such artists as Carlos Santana, Ricky Martin, Christina Aguilera, Jennifer Lopez, Enrique Iglesias and Marc Anthony. Top Athletes include Pedro Martinez, Gigi Fernandez, Jhonattan Vegas, Angel Cabrera, Ted Hendricks and Ignacio Saturnino.

Phillips visits depot, tenant organizations

Photos by Mark Cleghorn

Lt. Gen. William Phillips, Military Deputy/Director, Army Acquisition Corps, Office of the Assistant Secretary of the Army (Acquisition, Logistics and Technology) visited Anniston Army Depot Sept. 13. Tour stops included the Nichols Industrial Complex, the Anniston Chemical Agent Disposal Facility and the Anniston Munitions Center.

ABOVE: Phillips speaks with depot mechanic Julius Twymon in the depot's Combat Vehicle Repair Facility. LEFT: At an ANMC facility, Jeff Wright, chief engineer for Army Aviation and Missile Life Cycle Management Command G3 Missile Demilitarization, briefs Phillips on the demate equipment used on the Multiple Launch Rocket System.

From EXERCISE, page 1

fice.

For this reason, each exercise is based on capabilities, rather than a scenario.

During the all-hazard exercises, responders from throughout the installation practice their roles and responsibilities, honing skills in preparation for whatever may occur.

"When all is said and done, we want this installation to protect the life, safety and health of all employees. That is why we exercise and that is why we train," said Banks.

Throughout the day, observers from the Center for Domestic Preparedness on McClellan noted improvements to be made and best practices by the EOC staff. The assessment is still forthcoming, but Latimer was pleased with the attitude and participation of those in the EOC.

"The important thing is that we learn something from what we did and we use that to improve," said Latimer. "We discovered we have a capable EOC staff that just needs training and resources."

Photo by Mark Cleghorn

Kenny Steppe, standing, and Roy Stephens react to incoming information received over Stephens' computer in the depot's Emergency Operations Center during an exercise to test the installation's emergency management capabilities.

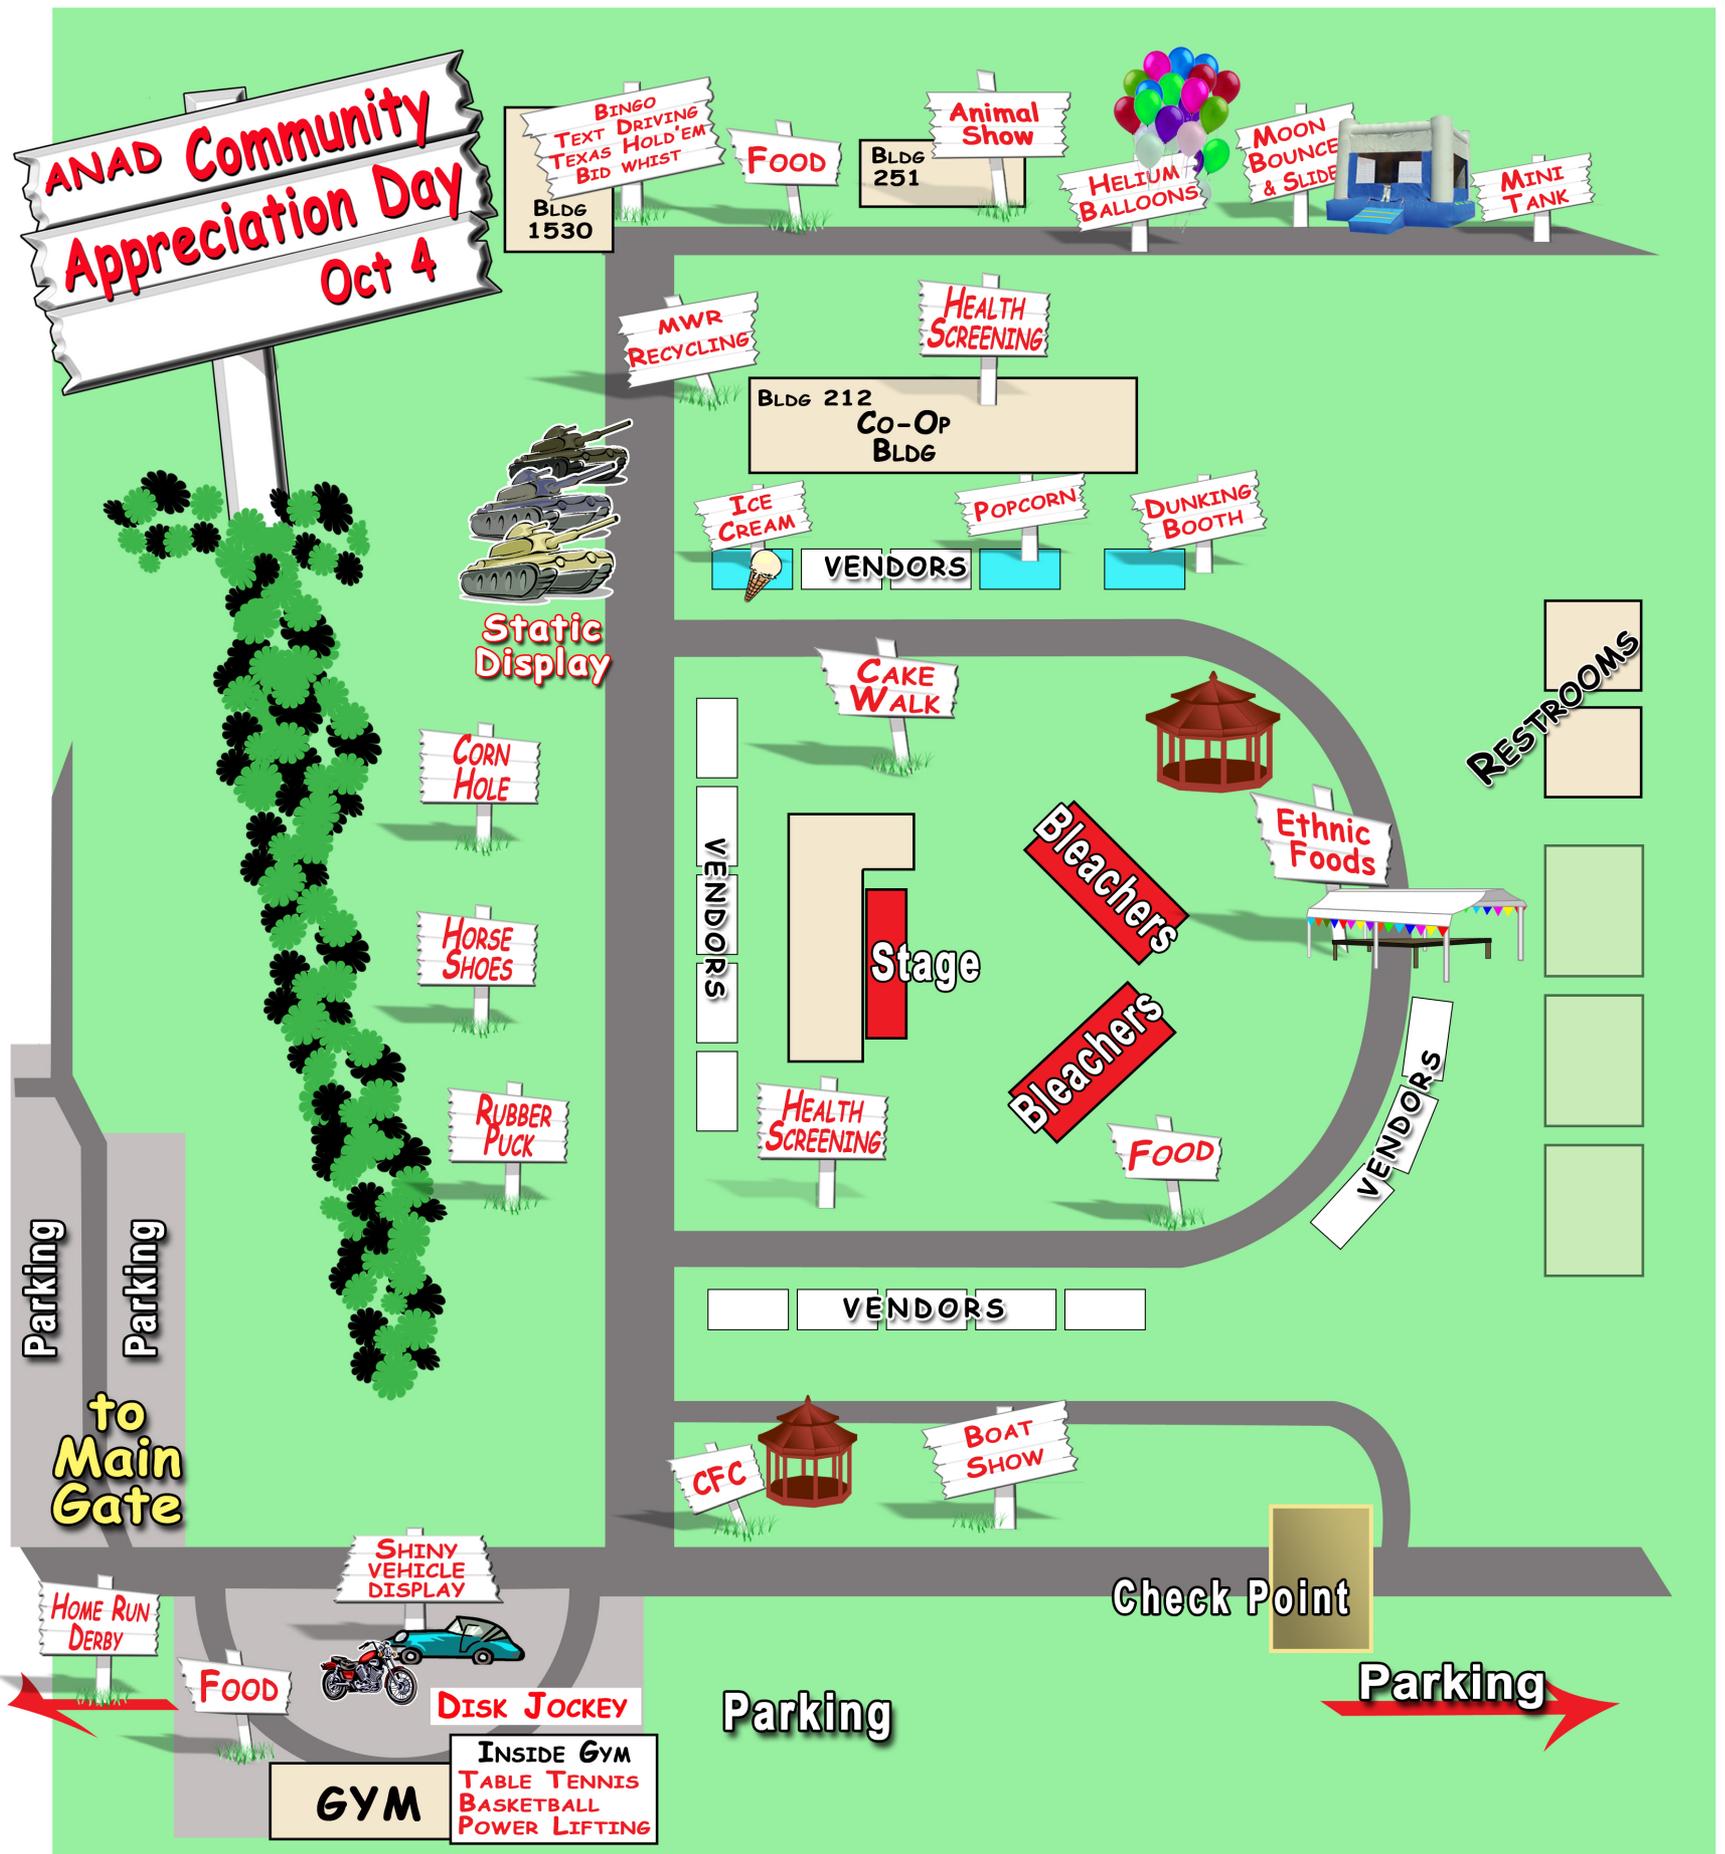

ANAD sets \$300,000 goal

The depot's Combined Federal Campaign kicked off last week. The 2012 goal is \$300,000 and CFC key people are making the rounds of kickoff events to distribute brochures and answer questions about the campaign.

If you haven't received a printed CFC campaign brochure, you may go to the depot's Intranet to download a copy or obtain a copy from your keyperson.

Tours are also being planned to visit local charitable organizations in Anniston, Gadsden and Piedmont. Tours are scheduled for Tuesdays and Thursdays. To sign up for a tour, contact your CFC keyperson or call Ext. 6077.

If you do not know which keyperson represents your organization, call Kimberly Smoot at Ext. 7785.

Community Appreciation Day

Oct 4th, 2012

SCHEDULE of EVENTS

TENTATIVE TIMES - SUBJECT TO CHANGE

- 11:00 - OPENING REMARKS
THE FUN BEGINS
- 11:30 - 2:30 LUNCH
- 11:30 - 1:00 TABLE TENNIS
- 11:30 - 2:30 HORSE SHOES
- 11:30 - 2:30 HOME RUN DERBY
- 11:30 - 2:30 POWER LIFTING
- 11:30 - 2:00 DUNKING BOOTH*
- 12:00 - 2:30 BINGO*
- 12:30 - 2:30 CAKE WALK
- NEW** 12:30 - 2:30 BID WHIST
- 11:00 & 1:00 ANIMAL SHOW (BLDG 251)
- 1:00 - 2:30 BASKETBALL
- 11:00 - 2:30 ON-GOING ALL DAY:

Food, Prizes, Board & Card Games, Texas Holdum,

Morning Show Rebroadcasts

Watch The Morning Show! It airs live each Wednesday at 7:05 a.m. on Local Area Network channel 21.

If you are unable to catch the live broadcast, there are two ways you can tune in. Computer users can view it on IPTV or it can be seen on LAN channel 21 during these rebroadcast times:

Wednesday: 10:30 a.m., noon, 2 p.m., 4:30 p.m., 8 p.m., 10 p.m. and midnight (Wed. night/Thurs. morning)

Thursday/Friday/Monday: noon and 11 p.m.

Watch for these upcoming shows:

- Oct. 3: Brian Freeman, the depot's energy guru will relay important information on ways to save energy at home and at work.

- Oct. 10: Since October is National Breast Cancer Awareness Month, Dr. Joshua Johannson will discuss women's health issues.

- Oct. 17: Susan Shipman of Second Chance will speak to the workforce about Domestic Violence Awareness Month.

POW artifacts

Anyone with knowledge of German or Italian artifacts related to prisoners of war at Fort McClellan from 1943-1946 is asked to call Klaus Duncan at 256-782-2991.

Property damage reminder

Immediately contact your supervisor when a loss or damage to government property is discovered.

Be cautious and aware of your surroundings when operating a government vehicle.

For more information, call the Directorate of Public Works at Ext. 7804.

DPW service order changes

The depot's Directorate of Public Works has transitioned from the Integrated Facilities System to the General Fund Enterprise Business System. As a result of this move, the IFS Service Order Web is no longer functional.

If you have facilities problems to report, please call Ext. 6317.

AKO e-mail changes

Army Knowledge Online will begin deleting AKO mailboxes later this month.

As mailboxes are deleted, AKO will set each individual's AKO forwarding address to their Enterprise E-mail address. Once this is done, it will not be possible to edit the forwarding address.

AKO will also delete all messages currently stored in the inbox or in folders on AKO.

AKO e-mail addresses (user@us.army.mil) will not be deleted or deactivated. The address will be maintained and messages sent to that address will automatically be forwarded to each user's Enterprise E-mail address.

For more information about these AKO changes, visit the AKO Enterprise E-mail transition page at www.us.army.mil/suite/page/675388.

Open Season

The Anniston Army Depot Appropriate Fund Health Fair will be held Oct. 24 from 8:30 to 11:30 a.m. in Bldg. 411 and from 1 to 2 p.m. in the DeSoto Pastime Center.

Open season for appropriated fund personnel will be from Nov. 12 to Dec. 10 with a benefits election effective date of Jan. 1. During open season, employees will be able to make any desired changes to their health insurance, without evidence of insurability or a qualifying event.

Please be reminded that open season is for health insurance only. There is no regularly scheduled open season for the Federal Employees Group Life Insurance Program.

PAY TIPS

Purchasing savings bonds online

Did you know you can buy Savings Bonds through myPay using the allotment feature?

You can also, stop and change the amount of your Savings Bond purchases.

In order to start a Savings Bond allotment, you must have an account with TreasuryDirect.

Once you have an account with TreasuryDirect, you may establish an allotment by accessing myPay and clicking on the Allotments Link.

You will need the nine digit TreasuryDirect Routing Transition Number and your TreasuryDirect account number.

Fill in all of the blanks. In the space asking for the Financial Institution name, enter "Bureau of the Public Debit."

Changing your address

If you have moved or need to change your correspondence address, myPay is the simplest, quickest way to change your address with DFAS.

The steps are:

1. Log on to the myPay web site and agree to the terms of the User Agreement

2. On the Menu Page, click the "Correspondence Address" link

3. Enter the correct address

4. Save your changes

5. Confirm that the information you entered is correct before existing or returning to the Main Menu

It will take three to five business days for your address change to appear in myPay.

To look for the change, log into myPay and select "Correspondence" on the Main Menu.

Employee Assistance Program

The Employee Assistance Program allows all Anniston Army Depot and tenant employees to receive assistance with personal issues that may be, or could cause, a work performance issue.

The ANAD Employee Assistance Program is staffed with individuals trained to identify and offer intervention for a variety of issues to include alcohol abuse and drug use, health related problems, marital, family, emotional, behavioral, financial and other issues that may interfere with employee productivity.

To make an appointment with the Employee Assistance Program call Exts. 3182 or 3617. Please be sure to notify your supervisor of the appointment prior to attending.

AFAP Conference

by Amanda Mullinax, ACS

The Annual Army Family Action Plan Conference is scheduled for Oct. 25.

AFAP is a process that lets Soldiers (both active duty and retired), Families and DoD civilians say what's working and what isn't while making suggestions on how to fix what is broken.

Army Community Service wants ideas and your participation.

If you have an idea to submit for the conference, look for yellow "ammo" boxes at the Physical Fitness Center (main gate), Child Development Center, Skills Development Center, DeSoto Pastime Center, Nichols Cardio Center in the production area, ASAP Employee Assistance in the production area, West Station Diner and the Nichols Dining Facility. There are forms located beside each box. Boxes will be picked up Oct. 4.

If you would like more information on the AFAP process, call ACS at Ext. 7445.

Don't miss out on this opportunity to share your concerns and ideas/suggestions for assuring that the quality of life of our soldiers and civilians is the best it can be. They all make a difference!

Army Volunteer Corps

Volunteers don't get paid for their work; not because it's worthless, but because it's priceless.

Anniston Army Depot is a great place to become part of a dynamic volunteer corps.

Volunteers give their time to improve and enhance the quality of life. The benefits of volunteering are many.

If you volunteered for the AER Golf Tournament, 5K Run or other events, you are already part of the Army Volunteer Corps.

ANAD has many events and opportunities just waiting for you. Join a winning team!

Contact Amanda Mullinax at 256-235-7231 or come by the ACS Center (Bldg. 221) to find out how you can become part of the ACS/Army Volunteer Corps.

Yoga

Yoga classes began Sept. 11 at the Physical Fitness Center.

Classes are held each Tuesday and Thursday from 5-6:30 p.m.

Cost is \$6.25 per class. For more information, call 256-235-6385.

West Station Diner

The West Station Diner is open for breakfast from 6:30 a.m.-9:15 a.m. and for lunch from 10:30 a.m.-1:10 p.m.

The diner has burgers, hot dogs, salads and sandwiches on the menu. For more information, call Ext. 6586.

Nichols Dining Facility

Breakfast is served from 8-9:30 a.m. and lunch from 11 a.m.-12:30 p.m. at the Nichols Dining Facility on the east side of ANAD.

The dining facility offers a salad bar, chicken wings, chicken tenders, chicken sandwiches, hamburgers and French fries daily in addition to a daily special.

To find out the daily special, please call the menu line at Ext. 6368

The Nichols Dining Facility will be closed on off-Fridays until further notice.

For more information, call Ext. 7127.

Anniston Gifts &

Sandwiches, salads and so much more are available at Anniston Gifts &, the shop located in the depot's Headquarters Building.

Stop in for jewelry, clothing adorned with the depot logo or one of the variety of other products today.

File photo

Community Appreciation Day

Plans are in place for this year's Community Appreciation Day, formerly known as Employee Appreciation Day, which is scheduled for Oct. 4. Mandatory training is slated for 7-10:30 a.m. that day and the appreciation day events will follow in the MWR area. See the map and information on pages 4 and 5. Activities planned for CAD include games, food, vehicle shows and much more. Mark your calendars and make plans to attend.

If you would like to volunteer with this event, contact Danielle Bruno at Ext. 7541.

DeSoto Pastime Center

Lunch: DeSoto Pastime Kitchen invites you to come out for lunch from 11 a.m. to 1:30 p.m. Monday through Friday.

There is something different for the special each Wednesday. For to-go orders, call 256-235-7160.

Food truck: The Pastime Center has a food truck that services the West area. If you are in need of this service, call the West Station at Ext. 6586 or the DeSoto Pastime Center at Ext. 7160.

Socialize: Come out and enjoy the great atmosphere that DPC has to offer. Monday and Tuesday evenings from 3:30-8 p.m., Wednesday and Thursday from 3:30-10:30 p.m. and Friday from 3:30 p.m. to 12:30 a.m.

Karaoke: Come to the DPC for karaoke every Friday night from 8-11:30.

Spaghetti Night: Join the DPC for Spaghetti Night every off-Friday from 6:30-8.

Big Bynum Bingo: Bingo with a \$5,000 progressive jackpot is played every Thursday at 6 p.m.

Electronic Bingo: Bingo is played daily starting at 3:30 p.m.

Apparel: DPC has depot T-shirts, coffee cups and hats available for sale.

For more information on events please contact the DeSoto Pastime Center at 256-235-7160.

ENVIRONMENTAL PERFORMANCE ASSESSMENT SYSTEM AUDIT

EPAS audit results

The 2012 internal Environmental Performance Assessment System audit is finally over.

Last week, Anniston Army Depot had an internal EPAS audit, which covered every environmental area from air to groundwater.

Numerous buildings were inspected for deficiencies with hazardous waste, hazardous materials, EMS, water, air, petroleum and/or solid waste.

Within each of these areas, a strong focus was made on proper procedures and documentation.

Some of the more common findings regarded storage of hazardous materials and procedures or documentation.

There were two positive findings worthy of some attention noted during the audit. The TIGER engine facility, operated through cooperation between Honeywell and ANAD, received a positive finding for the Honeywell contractors who use visual cues to ensure proper waste handling.

The depot's new Powertrain Transmission Facility was spot-on in regards to Emergency Management System awareness, especially the assembly section, under the supervision of David Williamson, who had taken time the week prior to prepare for the upcoming audit.

We appreciate the hard work in these buildings and the other areas that came out clear during this audit. Keep up the great work!

Below is a list of findings for production areas from this internal audit. Everyone should take time to review it for issues that could affect your area and be sure they are corrected.

The next audit will be our ISO surveillance audit in November, which will cover the same issues as this internal audit.

Please, correct any findings from this audit and look for other issues to correct before the next one.

Buildings identified for inspection for the November ISO audit are 474, 475, 31, 162, 524 and 400.

Though the auditor has identified these 6 buildings, several surprise buildings will be selected for inspection, so everyone needs to be ready. If you have questions or concerns, contact DRK at Ext. 7746.

Hazardous Materials:

Bldg. 31 – Disassembly area had no Material Safety Data Sheets available.

Bldg. 114 - Flammable locker found with no latch, 55-gallon drum of nitric acid with no Hazardous Material Management System label.

Bldg. 114 - drum of hazardous waste blast

material near walk-in blast booth not closed and nearly overflowing. No container number on drum.

Bldg. 174 – Containers of abrasives without HMMS labels.

Bldg. 250 – Sodium Hydroxide, old material and several other containers need removal or disposal.

Bldg. 409 – No noted deficiencies.

Bldg. 475 – Several containers of an unknown product (possibly used oil) was left behind by a contractor. This material was removed on the spot. There were no HMMS labels on abrasive grain. Unsecured Oxygen/Acetylene cylinders were corrected on the spot. There was a chemical product without HMMS labels.

Bldg. 475 - Far corner of bldg. had used oil drum open and a catch pan with used oil not removed. The paint booth in the back had containers of solvent paint waste. The container was not properly labeled or closed. Two walk-in blast booths had super sacks (located behind machine) that were not properly labeled. Waste stream not properly characterized.

Hazardous Waste:

Bldgs. 4, 55, 108, 127, 130, 131, 134, 413, 432, 433 had no noted deficiencies.

Petroleum, Oil and Lubricant Storage Tanks:

TK049, TK050, UST474-01, UST474-02, UST474-05 and UST 422-02 had water found in sumps.

AST 007-01, AST022-0 and AST694-01 had no interstitial monitors present and may have been removed. (This is an ongoing issue the noted during other inspections.)

HWSF, Bldg. 410 - No documentation or logs of required water drainage from secondary containment.

Environmental Management System:

Bldgs. 409, 432, 433 and 474 - level of knowledge on procedures, policies, and EMS are lacking.

Bldg. 474 – Workers in one area stated no procedure exists for their area and a job safety breakdown has not been completed on a process that has been conducted for four years.

Bldg. 432 – A flammable locker was missing HMMS labels on a container and a flammable item was not stored in the locker.

Bldg. 433 – Clean-up logs showed a gap in documentation.

Toxic Substances:

Bldg. 180 – One PCB container in storage was not properly labeled with an HMMS waste label. Personnel were not aware of a Standard Operating Procedure on PCB handling.

2012 Red Book

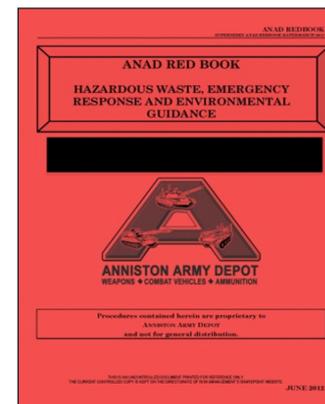

All shops must have the new June 2012 edition of the Red Book.

During the internal EPAS audit last week, a number of new Red Books were found, but, some old ones were discovered too.

Auditors will be checking for the newest edition, dated June 2012, in the upcoming ISO audit in November.

Be sure your shop has its copy when they come by.

Older versions will not count. You must have the newest revised version available in your shop. To get your copy, go the depot's library. You must swap out your old Red Book for the new one. You may also access it online through the DRK's SharePoint portal under DRK documents.

Competitions end

The 2012 Depot Wide Recycle Drive and Bird Habitat Drive are officially over.

This year's Recycle Drive and Bird Habitat Drive were the best yet. We had the largest amount of recyclables brought in and the largest number of participants building bird houses.

MWR and DRK are currently tallying the numbers for the recycle drive and judging the bird houses. We would like to thank everyone who participated.

Winners for both competitions will be announced at this year's Community Appreciation Day, which will be Oct. 4. Be sure to stick around to see if you won the prize! Good luck to everyone involved!

Need a recycling bin for your work area?

Call 6838!
